DETAILED ACTION

1. Claims 1-40 are pending.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Peth, US 6,957,192.

Peth discloses, e.g. Figs. 1-9, using a computer for an online credit report based upon personal information about a buyer. Peth does not explicitly disclose using first or second web servers to generate a credit application. Official Notice is taken that multiple servers used in an electronic commerce environment has been common knowledge in the point-of-sale electronic art. To have provided such for Peth would have been obvious to one of ordinary skill in the art. It is noted the approval criterion recited in the claims is inherent with Peth.

Applicant's September 8, 2005 REMARKS have been reviewed are convincing with regards to the previous Office Action, but are moot in light of the new rejection.

4. Further references of interest are noted on the attached PTO-892.
